In 2006 Dan Miller and I were physically located at the Olympus facility. Many of these type reports were filed in the vault room in the filing cabinets. I don't know if these specific reports were filed there; however, I used to keep a log in a 3 ring binder that was kept in the vault. The first half of the binder listed the type of reports that were filed in the filing cabinets and which cabinet and drawer they were in. The second half of the binder was an alphabetical listing. When we moved to Oyster Bay, the filing cabinets stayed at Olympus because we did not have the room for them at Oyster Bay—the binder stayed there with the filing cabinets. I would recommend contacting Angela Woods and ask her if she knows what happened to the documents in the filing cabinets and the binder I am speaking about. There were eight 5 drawer filing cabinets in that vault.

Milenka,

I don't know if anyone else can help with this public records request over there. I understand this was when Lynn Hornish was in PW and she may be able to help with locating the records.

Linda,

I understand the Brownsfield assessment was handled by Phil Williams and when he left it went to Engineering. Does the PW Admin have any more files on the Brownsfield Assessment, specifically the documents listed below?

I will email you the original public records request also.
